User Dashboard Notes

1. Chosen password make stronger by user not easy.

2. Make Picture below as Default for new users

*Note that if use the Default photo it will not show in the admin panel

Please solve this problem

*Note that it is very difficult for upload picture please check it

In addition, support PNG, JPG, JPEG

3. Minimize the size font for Password, New Password

Confirm New Password in Settings

4. Deactivate Account in Red please link to https://skyforecasting.net/help-center/

5. Billing and Statements

The difference between Billing and Statements is status, in billing, it will be complete and statement will like file that can user download it.

6. Add Funds

It is not complete, the same design in payment for order but we have one choice PayPal and the order summery just change place order by Add Money or Deposit Money after that integrate to PayPal.

7. Withdraw funds

You can add the form which in link below

https://centerload2012.wixsite.com/form

After that we will receive it on admin panel.

8. Search square in data forecasting, data analysis, Disease predictions and data visualization, data science and AI not working.

9. Picture in above for page data science and AI and data analysis not exist.

10. Delivery in order activity we get pages has full codes please fix it.

11. Help in negation bar please link on https://skyforecasting.net/help-center/

12. Data forecasting for all sub , Data analysis , Disease predictions , when you purchase directly give me message ((Payment is cancelled.))

12. drag and drop files Browse files Not working , you have add all supported files , excel , pdf words,...etc .
